### PATENTS.

AMERICAN AND FOREIGN OFFICE,  
AGENCY FOR BUSINESS  
WITH THE U. S. PATENT OFFICE;  
WASHINGTON,

NO. 76 STATE, OPPOSITE KILBY ST., BOSTON.

IMPORTANT INFORMATION TO IN-  
VENTORS. The Subscriber (late Agent of the  
U. S. Patent Office, under the Act of 1837)

determined to procure advantages, in applying  
for patents, superior to those offered by others,  
has made arrangements whereby on

applications prepared and conducted by him,  
THIRTY DOLLARS (instead of twenty, as  
paid back by others), will be remitted by him in

case of failure to obtain a patent, and the with-  
drawal from him within thirty days after the  
rejection. Caveats, Specifications, Assignments,

and all necessary papers and drawings, for pro-  
tecting patents in this and foreign countries pre-  
pared, and advice rendered on legal and scientific  
matters respecting inventions, and infringement

of patents.  
Inventors can not only secure their specifications  
on the most reasonable terms, (generally about  
30 per cent. less than those of others in the  
profession) but avail themselves of the expe-  
rience of 20 years practice, his visits to the  
Patent Office, an extensive library of legal  
and mechanical works, and correct ac-  
counts of inventions granted in this and other coun-  
tries; besides being saved a journey to Wash-  
ington, the usual great delay there, as well as all  
personal trouble in obtaining their patents.

Copies of claims of any patent furnished by re-  
mitting one dollar. Assignments recorded at  
Washington. Patents in Great Britain, France,  
and other foreign countries, secured through  
agents of the highest respectability.

R. H. EDDY,  
Solicitor of Patents.

During the time I occupied the office of Com-  
missioner of Patents, R. H. Eddy, Esq., of Boston  
did business at the Patent Office, as Solicitor  
of procuring Patents. There were few, if any,  
persons acting in that capacity, who had so much  
business before the Patent Office; and there were  
none who conducted with more skill, fidelity and  
success. I regard Mr. Eddy as one of the best in-  
formed and most skillful Patent Solicitors in the  
United States, and have no hesitation in naming  
inventors that they cannot employ a person more  
competent and trustworthy, and more capable of  
putting their applications in a form to secure for  
them an early and favorable consideration at the  
Patent Office.

Late Commissioner of Patents.

From the present Commissioner.

"August 17th, 1855.—During the time I  
have held the office of Commissioner of Patents,  
R. H. Eddy, Esq., of Boston, has been exten-  
sively engaged in the transaction of business  
with the office, as a solicitor. He is thoroughly  
acquainted with the law, and the rules of practice  
of the Office. I regard him as one of the most cap-  
able and successful practitioners with whom I  
have had official intercourse. CHAS. MASON,  
Sept 12 1855. Commissioner of Patents.

FRIDAY MORNING, NOV. 22, 1855.

**PURCHASE OF CUBA.**—A letter from London to the New York Courier and Enquirer informs the public that the purchase of Cuba by the United States is possible, if the latter will give two hundred millions of dollars, one half to be applied to the liquidation of the foreign debt of Spain, and the other half to the liquidation of the home debt. One hundred millions of dollars is about one-fifth of the face value of the foreign debt of Spain, which started in full is £100,000,000, but the faith of Spain is of such a nature that the bondholders would gladly accept one hundred million of dollars from the United States as full payment.

**WE** call the attention of our readers to an advertisement in our columns, of Mr. O. M. Tinkham, who intends, if sufficient encouragement be given, to open a singing school in this city, on Wednesday evening, next, at the State House. See advertisement.

**TRAINING BOYS FOR SEAMEN.**—A Committee of the Baltimore Board of Trade have issued an appeal to the people of that city for the means wherewith to purchase and equip a vessel and furnish a nautical teacher for the purpose of establishing a floating school, for the education and training of boys for seamen. The Commissioners of the public schools have already agreed to supply teachers in the same course of instruction as is now pursued in the public schools, and to furnish books and all needful school apparatus. Such schools ought to be established in every large seaport. They would do much towards supplying a superior class of seamen and meeting the increased demands of the commerce of the country.

**FILLMORE FOR PRESIDENT.**—A large meeting of Americans was held at the Tropic, Montgomery county, on Saturday, when a spirited address was read, and the following, among other resolutions, unanimously adopted:

Resolved, That we hail with pride the name of Millard Fillmore, guaranteed as we are by his past defence of the Union, that we may recognize in his election to the Presidency of the United States, a man into whom every American may look with confidence for the future peace of our country and welfare of her institutions.

Resolved, That we support the national district to the next National Council, unless we are by and sustain the great principles for which we are now contending.

**THIS WORLD AND THE OTHER.**—Men deal on this world as though it were never to have an end, and neglect the other as if it were never to have a beginning.

**THE PRESIDENT'S MESSAGE.**—According to present determination, no copies of the President's Message will be sent out for newspapers, as heretofore, in advance of its delivery to Congress.

**ANTHONY BARCLAY, British Consul** at this port, pronounces the charges that he has been engaged in sedition or retaining men for the British Army, &c., "slimply and absolutely untrue."—N. Y. Mirror.

**THE WILL OF LOUIS NAPOLEON.**—The Emperor of France is looking forward to whatever contingencies may yet mark his eventful career. We learn from a Paris correspondent of the New York Post that the Emperor of France has made his will, which provides that in case of the death of the child to which the Empress is shortly expected to give birth, or in case of the death of NAPOLEON III, without any direct heir, France is again to become a Republic under the Presidency of Prince NAPOLEON.

**A lady in Bangor** lost a valuable earring. The next day a youngster called and informed her that he knew a boy who had found an earring, and very innocently asked the lady for the mate, to enable him to ascertain whether or not the earring belonged to her. The lady complied, but the boy has not probably concluded his investigation as he has not been seen since by the confiding lady.—Bangor Chronicle.

The mail bag from Philadelphia for Buffalo, was cut open and robbed on Sunday.

**ACCIDENT.**—A young man named Crawford Johnson, about 23 years of age, had his arm very badly lacerated while on a gunning excursion down the river on Saturday afternoon. It was at first thought that amputation would be necessary, but the arm is now expected to be saved.—[New York Herald, 20th.]

**PEN'S LANDING AT PHILADELPHIA.**—The Philadelphia Bulletin, in noticing Thursday last as the anniversary of the landing of William Penn, says:—

"If the illustrious founder of the State and city could revisit the spot in which so much commendable pride and ambition were centred, he would find but few traces left of the original Philadelphia. We believe that there are but three buildings now standing in the city that were in existence in 1648, to wit: the Swedes Church, the State-house in Second street, and the Letitia House in Letitia Court, Market street. But even these ancient structures, with which the proprietor was familiar when in the city, are so changed and so crowded upon by the march of trade and by modern improvements that he would probably fail to recognize them were it possible for him to pay them a posthumous visit."

The occasion was celebrated by the Historical Society.

**A GIRL ACCIDENTALLY KILLED BY ANOTHER GIRL.**—We learn from the Manchester Mirror that a fatal accident occurred on Saturday afternoon in the Sturk Mills in that city:—

"An Irish girl by the name of Mary Haley, and another Irish girl about the same age, started, in sport, to see which could reach a bobbin box first, and the other girl gave her a push, throwing her hand upon the corner of the box, and fell upon her, hurting her seriously and fatally. However, Mary did not apprehend any serious accident, and continued her work till the gates shut down. On her way home she felt faint and unable to walk, and spoke to a gentleman passing, and told him she was dying, and asked him to carry her home. He looked at her and laughed, thinking no danger, and passed on. Soon after another person, whom she knew, came along and carried her to her home on Concord street. She insisted that she could not live, and a physician was sent for. He said she could not live two hours, and she did not. She insisted that the girl who had caused the accident should not be punished, as it was not intentional. She was buried Monday."

**SUNDAY WORK.**—On Sunday morning, August 3d., Lopez and his men sailed from New Orleans.

On Sunday, the 10th, they reached Key West, and took on board and drank freely of brandy and champagne.

On the same Sunday they sailed for the coast of Cuba, and by a sad mistake, found themselves the next morning, in plain sight of the Moro Castle.

On Sunday, Aug. 17th, they were wandering on the mountains of Cuba.

On Sunday, the 24th, in attempting to rescue San Cristobal, they were surprised by a force of 900 Spanish troops compelled to retreat into the mountains, in small parties, with the loss of their guns and whatever else that impeded their flight, a considerable number of them being overtaken and killed.

On Sunday, Aug. 31st, forty-seven of them including Lopez, were carried prisoners to Havana, and lodged the same night in the city prison, with the exception of Lopez, who was kept in the Frigate Pizarro, until his execution the next morning.

**RUSSIAN NAVAL PREPARATIONS.** A letter from Odessa, of the 16th October, in the Austrian Gazette, says: "The Grand Duke Constantine displays untiring activity. He receives, every morning at 5 o'clock, the various dispatches of the Generals, and then proceeds to the docks of the town of Spasskoff, where ships are launched. Three screw steamers are lying there completely finished.

The engine of the English steamer Tiger, which ran aground in its neighborhood, has been used for one of them, named the Vijas or Hero. Two of these steamers are to carry 36 and the third 42 guns. They will probably be ready for sea in the spring. Two first rate ships are on the stocks, the Nachimoff, of 130, and another of 120 guns; 500 gun boats are likewise building.

**CAUSE AND EFFECT.**—The best and most conclusive reason for an effect that we ever remember to have heard, writes a western correspondent, was one given by a one idea Dutchman, in reply to a friend who remarked, "Why, Han, you have the most feminine cast of countenance I have ever seen." "Oh yaw," was the reply, "I know the reason for dat; mine moeder was a woman."

The crew of the brig Marie bound from Boston for Savannah, played the captain a cool trick on Sunday night. The brig had hauled into the stream preparatory to sailing, when the crew, having received their advance pay, locked the captain up in the cabin and returned to Boston to "melt" their ill-gotten cash.

A sect of spiritualists out West believe that a youth is now living in the United States, who is destined to work wonders, being the embodiment of Wisdom, as the Savior was the embodiment of Love.

## THE FIRST SNOW FALL.

BY JAMES RUSSELL LOWELL.

The snow had begun in the gloom,  
And busily all the night  
Had been heaping field and highway  
With a silence deep and white.

Every pine, and fir and hemlock,  
Wore a white too dear for an eel,  
And the poorest twig on the elm tree  
Was rigid with deep and white.

From sheds, new roofed with Carrara,  
Came Chanticleer's muffled crow,  
The stiff rails were loosened to swan's-down,  
And still fluttered down the snow.

I stood and watched by the window  
The noiseless work of the sky,  
And the sudden furies of snow-birds,  
Like brown leaves whirling by.

I thought of a mound in sweet Auburn,  
Where a little headstone stood,  
How the flakes were falling gently,  
As did robins the babies in the wood.

Up spoke my own little Mabel,  
Saying, "Father who makes it snow?"  
And I told her of the good Alfalfather  
Who cares for us all below.

Again I looked at the snowfall,  
And thought of the leaden sky  
That arched o'er our first great sorrow,  
When the mound was heaped so high.

I remembered the gradual patience  
That fell from that cloud-like snow,  
Flake by flake, healing and hiding  
The scar of that deep-stabbed woe.

And again to the child I whispered,  
"The snow that husheth all,  
Darling, the Merciful Father  
Alone can make it fall!"

Then, with eyes that saw not, I kissed her,  
And she, kissing back, could not know  
That my kiss was given to her sister  
Folded close under deepening snow.

**A MOB IN LONDON APPEARED BY MR. BUCHANAN.**—A Washington letter says:—

Last night the President received a telegraphic despatch from some person in New York relating to a rumor or statement brought by passengers in the Pacific, to the effect that a crowd of mob, very much excited by the representation that the Ministry designed to go to war with the United States, assembled around Lord Palmerston's house, in a threatening manner, and that Mr. Buchanan appeared before them and gave them satisfactory assurances that there was no danger of the occurrence of a war between the two countries, and that, so far from having demanded his passports, in consequence of any difficulty, the correspondence between him and the government had been of a very amicable nature. How much truth there may be in this dispatch I cannot undertake to judge; but it appears that the Times articles, if it could cause a mob, could not much effect United States securities on the stock exchange.—Phil. U. S. Gazette.

**A TON OF COAL.**—Judge Grier, of the United States Supreme court, has decided, on a suit instituted in Pennsylvania, that the legal weight of a ton of coal is 2,240 lbs., and that no State law can be enacted altering the quantity. According to this decision, every coal dealer who gives 2,000 lbs. to the ton can be arrested and convicted on a charge of swindling. The law of Pennsylvania makes the ton only 2,000 lbs., and a violent warfare has for a long time been waged against the coal dealers, with the result as above stated.

A large company is being formed at New Haven, Ct., of substantial citizens—Merchants, farmers, and mechanics—who propose to emigrate to Kansas in a body next spring.

**ASSAULT IN FREETOWN.**—On Sunday morning last, David Rogers, a pauper in the Almshouse at Freetown, made an assault with an axe upon Mr. Zebadiah Clapp, keeper of that institution, threatening to split him down, &c., for which offence he was on Monday arraigned before Thomas G. Nichols, Esq., fined and put under bonds to keep the peace. Failing to pay or procure bail, he was committed to jail. This is the same Rogers that figured in the affray that resulted in the death of Asa Clark, Jr., at Freetown, in 1838, for whose murder Benjamin Cummings was executed at Taunton in 1839.—Taunton Gazette.

**ENGLAND AND AMERICA.**—The Washington Union, in an able article on the present condition of affairs between England and the United States, says:—"God forbid that another war should ever occur between the United States and Great Britain; but we confidently believe that, if such a war should occur, we could raise three hundred thousand men for the invasion of England with less trouble than she raises thirty thousand for the invasion of Russia!"

**Excitement at Parkville.**—There was a great excitement in Parkville, Mo., the 13th, caused by the appearance of Geo. S. Park, the proprietor of the old Parkville Luminary, which was thrown in the river last spring by a mob. The citizens had a meeting and appointed a committee to order Park to leave town. Some of Park's friends interfered, and they were about to have a fight. At last accounts they had not settled what should be done.

## BY TELEGRAPH.

BALTIMORE, Nov. 20.

The New Orleans mails of Monday and Tuesday of last week are received, and the papers contain full details of late Mexican news. Gen. Comonfort's resignation of the ministry of war had not been accepted. The Governor of Texas recommends the Legislature to accept the act of Congress for the adjustment of the Texas debt.

BOSTON, Pa., Nov. 20.

The monument in honor of George Taylor, one of the signers of the Declaration of Independence, was dedicated to day, in the Boston Cemetery, with imposing ceremonies. A considerable military force was present. The Rev. Dr. Schaffer opened the ceremonies with prayer, after which an oration, eulogistic of the man whose memory the monument honors, was delivered by Hon. Alex. E. Brower.

To horse owners, stable keepers and others—Dyers' Healing Emulsion has proved to be one of the best remedies for lameness, caused by strains, bruises, sprains or other accidental causes as well as for wounds, galls or other injuries that are frequently occurring to horses and other animals. It is also the cheapest preparation that can be used. A stable keeper in Providence says:—

"I have frequently used it with the most decided marked results upon my horses. I use it in all cases of cuts, wounds and bruises, and in internal pains and distress, and it never fails to give immediate relief, or to effect a cure. It will heal wounds, cuts or sores, upon man or animals, sooner than any other preparation I have ever used."

SOAP! SOAP!!  
THE subscriber is now prepared to furnish  
the highly celebrated American Cream  
American Laundry, American Cream  
Soap, and Cream Soap preparation. These  
soaps are presented to the public with the fullest  
confidence in their superiority and utility. A fair trial  
according to the directions given be-  
low, cannot fail to be entirely satisfactory; and  
an argument more conclusive than pages of  
certificates and recommendations. A fair trial is  
all I ask. These soaps do the work of the  
laundry in the best manner in cold water, either  
hard or soft, or salt, dispensing entirely with  
boiling, pouring, washing machines, &c.,  
and without much more delicate fabric, and  
without injury to health may render it advisable to  
take the child off the water.

The tendency of these soaps is to soften the  
clothes and loosen the hold of the dirt, without  
injury.

DIRECTIONS FOR USE.—White Clothes.—  
Rub the soap freely & all soiled spots, make a  
strong suds in water, sufficient to cover, soak a  
few hours, or all night if convenient, when with  
a common hand rubbing and thorough rinsing,  
they will be perfectly clean and beautifully  
bleached.

Coloreds and other colored articles, wash  
without soap and rinse.

Woolens.—Wash in warm suds (to prevent  
shrinkage) and rinse.

Merinoes, Silk Vests, Silks, Ribbons, &c.  
Wash in strong suds and rinse.

To take Lamp Oil, Wheel Grease, Grease  
Spots, &c. out of Carpets, Table Covers, and  
Clothing, rub the soap on freely, soak some time  
in strong suds, rub out and rinse. Ink spots  
and stains, use full strength, soak, and wash in  
hot water.

Gilding and Mahogany.—Wash in weak  
suds, rub with silk cloth and rinse. Paint  
wash with strong suds and rinse.

For all other purposes, use as you do the  
common bar soap, and you will be compelled to  
admit that it surpasses all other soaps. Manu-
